

REQUIRED VACCINATIONS FOR PRE-SCHOOL and/or TRANSITIONAL KINDERGARTEN

DTP: at least four doses

Polio: at least three doses

MMR: at least one dose

HIB: three doses or one dose after 15 months of age

Hepatitis B: three doses

Varicella: one vaccination required IF your child has not had the chicken pox. If your child has had the chicken pox, we would like to know month and date. A doctor's note is not required.

Prevnar: number of doses depends on child's age

We also need to know where your child received the vaccinations. City and State is sufficient.

You may call Health Services of Lyon County at 472-8200 if you have any questions or wish to schedule shots. If we find that your child is missing something on his/her record, you will receive a letter after the school year begins. Thanks for your help in this matter.

Mel De Jong, RN
Lyon County School Nurse
