A. School district notice.

1. The school district will post the notice regarding family and medical leave.
2. Information on the Family and Medical Leave Act and the board policy on family and medical leave, including leave provisions and employee obligations will be provided annually. The information will be in the employee handbook.
3. When an employee requests family and medical leave, the school district will provide the employee with information listing the employee's obligations and requirements. Such information shall include:
 - a. statement clarifying whether the leave qualifies as family and medical leave and will, therefore, be credited to the employee's annual 12-week entitlement depending on the purpose of the leave;
 - b. a reminder that employees requesting family and medical leave for their serious health condition or for that of an immediate family member must furnish medical certification of the serious health condition and the consequences for failing to do so or proof of call to active duty in the case of military family and medical leave;
 - c. an explanation of the employee's right to substitute paid leave for family and medical leave including a description of when the school district requires substitution of paid leave and the conditions related to the substitution; and
 - d. a statement notifying employees that they must pay and must make arrangements for paying any premium or other payments to maintain health or other benefits.

B. Eligible Employees.

Employees are eligible for family and medical leave if three criteria are met.

1. The school district has more than 50 employees on the payroll at the time leave is requested.
2. The employee has worked for the school district for at least twelve months or 52 weeks (the months and weeks need not be consecutive); and
3. The employee has worked at least 1250 hours within the previous year. Full-time professional employees who are exempt from the wage and hour law may be presumed to have worked the minimum hour requirement.

If the employee requesting leave is unable to meet the above criteria, the employee is not eligible for family and medical leave.

C. Employee requesting leave – two types of leave.

1. Foreseeable family and medical leave.
 - a. Definition – leave is foreseeable for the birth or placement of an adopted or foster child with the employee or for planned medical treatment.
 - b. Employee shall give at least thirty days notice for foreseeable leave. Failure to give the notice may result in the leave beginning thirty days after

notice is received. For those taking leave due to military family and medical leave, notice should be given as soon as possible.

- c. Employees must consult with the school district prior to scheduling planned medical treatment leave to minimize disruption to the school district. The scheduling is subject to the approval of the health care provider.

2. Unforeseeable family and medical leave.

- a. Definition – leave is unforeseeable in such situations as emergency medical treatment or premature birth.
- b. Employee must give notice as soon as possible but no later than one to two work days after learning that leave will be necessary.

- a. The birth of a son or daughter of the employee and in order to care for that son or daughter prior to the first anniversary of the child's birth;
- b. The placement of a son or daughter with the employee for adoption or foster care and in order to care for that son or daughter prior to the first anniversary of the child's placement;
- c. To care for the spouse, son, daughter or parent of the employee if the spouse, son, daughter or parent has a serious health condition;

- 2. Employees shall be required to present medical certification of the family member's serious health condition and that it is medically necessary for the employee to take leave to care for the family member.
- 3. Employees shall be required to present certification of the call to active duty when taking military family and medical leave.

b. Employee's medical certification responsibilities:

- 1. The employee must obtain the certification from the health care

- provider who is treating the individual with the serious health condition.
2. The school district may require the employee to obtain a second certification by a health care provider chosen by and paid for by the school district if the school district has reason to doubt the validity of the certification an employee submits. The second health care provider cannot, however, be employed by the school district on a regular basis.
 3. If the second health care provider disagrees with the first health care provider, then the school district may require a third health care provider to certify the serious health condition. This health care provider must be mutually agreed upon by the employee and the school district and paid for by the school district. This certification or lack of certification is binding upon both the employee and the school district.
- c. Medical certification will be required fifteen (15) days after family and medical leave begins unless it is impracticable to do so. The school district may request recertification every thirty days. Recertification must be submitted within fifteen (15) days of the school district's request.
 - d. Employees taking military caregiver family and medical leave to care for a family service member cannot be required to obtain a second opinion or to provide recertification.

Family and medical leave requested for the serious health condition of the employee or to care for a family member with a serious health condition which is not supported by medical certification will be denied until such certification is provided.

E. Entitlement.

1. Employees are entitled to twelve weeks unpaid family and medical leave per year. Employees taking military caregiver family and medical leave to care for a family service member are entitled to 26 weeks of unpaid family and medical leave but only in a single 12-month period.

G. Special Rules for Instructional Employees.

1. Definition – an instructional employee is one whose principal function is to teach and instruct students in a class, a small group or an individual setting. This includes, but is not limited to, teachers, coaches, driver's education instructors and special education assistants.

 - a. Take leave for the entire period or periods of the planned medical treatment; or
 - b. Move to an available alternative position, with equivalent pay and benefits, but not necessarily equivalent duties, for which the employee is qualified.
3. Instructional employees who request continuous family and medical leave near the end of a semester may be required to extend the family and medical leave through the end of the semester. The number of weeks remaining before the end of a semester does not include scheduled school breaks, such as summer, winter or spring break.
 - a. If an instructional employee begins family and medical leave for any purpose more than five weeks before the end of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last at least three weeks and the employee would return to work during the last three weeks of the semester if the leave was not continued.
 - b. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last five weeks of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last more than two weeks and the employee would return to work during the last two weeks of the semester.
 - c. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last three weeks of the semester and the leave will last more than five working days, the school district may require the employee to continue taking leave until the end of the semester.
4. The entire period of leave taken under the special rules is credited as family and medical leave. The school district will continue to fulfill the school district's family and medical leave responsibilities and obligations, including the obligation to continue the employee's health insurance and other benefits, if an instructional employee's family and medical leave entitlement ends before the involuntary leave period expires.

H. Employee responsibilities while on family and medical leave.

1. Employee must continue to pay health care benefit contributions or other benefit contributions regularly paid by the employee unless employee elects not to continue the benefits.
2. The employee contribution payments will be deducted from any money owed to

the employee or the employee will reimburse the school district at a time set by the superintendent.

3. An employee who fails to make the health care contribution payments within thirty days after they are due will be notified that their coverage may be canceled if payment is not received within an additional 15 days.
4. An employee may be asked to re-certify the medical necessity of family and medical leave for the serious medical condition of an employee or family member once every thirty days and return the certification within fifteen days of the request.
5. The employee must notify the school district of the employee's intent to return to work at least once each month during their leave and at least two weeks prior to the conclusion of the family and medical leave.
6. If an employee intends not to return to work, the employee must immediately notify the school district, in writing, of the employee's intent not to return. The school district will cease benefits upon receipt of this notification.

I. Use of paid leave for family and medical leave.

An employee may substitute unpaid family and medical leave with paid leave available to the employee under board policy, individual contracts or the collective bargaining agreement. Paid leave includes, but is not limited to, sick leave, family illness leave, vacation, personal leave, bereavement leave and professional leave. When the school district determines that paid leave is being taken for an FMLA reason, the school district will notify the employee within two business days that the paid leave will be counted as FMLA leave.

- Continuing treatment by a health care provider. A serious health condition involving continuing treatment by a health care provider includes:
 - A period of incapacity (i.e., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from) of more than three consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves:
 - Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders or, on referral by, a health care provider; or
 - Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.
 - Any period of incapacity due to pregnancy or for prenatal care.

 - requires periodic visits for treatment by a health care provider or by a nurse or physician's assistant under direct supervision of a health care provider;

 - A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment

- by, a health care provider. Examples include Alzheimer's, a severe stroke or the terminal stages of a disease.
 - any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).
- Treatment for purposes of this definition includes, but is not limited to, examinations to determine if a serious health condition exists and evaluation of the condition. Treatment does not include routine physical examinations, eye examinations or dental examinations. Under this definition, a regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
- Conditions for which cosmetic treatments are administered (such as most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are examples of conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this regulation are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.
- Substance abuse may be a serious health condition if the conditions of this section are met. However, FMLA leave may only be taken for treatment for substance abuse by a health care provider or by a provider of health care on referral by a health care provider. On the other hand, absence because of the employee's use of the substance, rather than for treatment, does not qualify for FMLA leave.
- Absence attributable to incapacity under this definition qualify for FMLA leave even though the employee or the immediate family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

Serious injury or illness - an injury or illness incurred by a member of the Armed Forces, including the National Guard or Reserves in the line of duty on active duty in the Armed Forces that may render the member medically unfit to perform the duties of the member's office grade, rank, or rating.

Son or daughter – a biological child, adopted child, foster child, stepchild, legal ward, or a child of a person standing in loco parentis. The child must be under age 18 or, if over 18, incapable of self-care because of a mental or physical disability.

Spouse – a husband or wife recognized by Iowa law including common law marriages.
