

Northwest AEA Substitute Authorization Classes 2020

■ What is the Substitute Authorization

The Substitute Authorization allows an individual with a baccalaureate degree who has completed the Substitute Authorization program to substitute in an elementary, middle school, junior high school or high school classroom for no more than five consecutive days in one job assignment at a time.

Paraeducators who hold a Paraeducator Generalist Certificate and complete the Substitute Authorization program are authorized to substitute, but only in the special education classroom in which the individual paraeducator is employed. A paraeducator cannot substitute in a general education classroom.

Schools continue to have the autonomy to hire only individuals who are fully licensed as teachers. However, there now exists a second option for schools that may have difficulty filling a short-term substitute position.

■ What you will learn:

Ethics

the ethical and professional practices for substitute teaching.

Classroom Management

methods for keeping students engaged and on-task.

Instructional Strategies

the components of effective lessons and instructional strategies.

Diverse Learning Needs of Students

the many cultural differences of students and understand how cultural heritage impacts interpersonal relationships.
