

EDUCATION PROGRAM

Series 600

Policy Title _____ Student Health Services _____

Code No. _____ 607.02 _____

Health services are an integral part of comprehensive school improvement, assisting all students to increase learning, achievement, and performance. Health services coordinate and support existing programs to assist each student in achievement of an optimal state of physical, mental and social well-being. Student health services ensure continuity and create linkages between school, home, and community service providers. The school district's comprehensive school improvement plan, needs, and resources determine the linkages.

The superintendent, in conjunction with the school nurse, will develop administrative regulations implementing this policy. The superintendent will provide a written report on the role of health services in the education program to the board annually.
