

STUDENTS

Series 500

Policy Title Student Activity Program

Code No. 504.06

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and ability in the students during their school years and for their lifetime.

Students will have an opportunity to participate in a school activity unless the activity is not offered, or the student cannot participate for disciplinary reasons. If the activity is an intramural or interscholastic athletic activity, students of the opposite sex will have a comparable opportunity for participation. Comparable opportunity does not guarantee boys and girls will be allowed to play on each other's teams when there are athletic activities available that will allow both boys and girls to reap the benefits of school activities, which are the promotion of additional interests and abilities in the students.

Student activity events must be approved by the superintendent unless they involve unusual travel expense, in which case the board will take action. The events must not disrupt the education program or other school district operations.

A George-Little Rock student who is participating in a sport sponsored by the George-Little Rock Board of Education may not participate in a non-school sport during the same season as the G-LR sport season unless the administration, athletic director and coach jointly approve such participation. Failure to comply with this policy may cause said student/students to be ineligible for the remainder of the sport season that the violation occurred and for the next full sport season in which the athlete previously participated.

Such outside participation will not conflict with the school sponsored athletic activity. These rules apply to grades 7-12 students only.

It is the responsibility of the superintendent to develop administrative regulations for each school activity. These regulations will include, but not be limited to, when physical examinations will be required, how and when parents will be informed about the risk of the activity, academic requirements, and proof of insurance on the student participating in certain activities. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity.

Note: This is a mandatory policy. Boards must have a policy addressing the issue of non-school athletic participation.
