

STUDENTS

Series 500

Policy Title Testing Program

Code No. 505.04

A comprehensive testing program is established and maintained to evaluate the education program of the school district and to assist in providing guidance or counseling services to students and their families.

No student is required, as part of any applicable program, funded by the United State Department of Education, to submit to a survey, analysis or evaluation that reveals information concerning:

- political affiliations or beliefs of the student or student's parent *or guardian*;
- mental or psychological problems of the student or the student's family;
- sex behavior or attitudes;
- illegal, anti-social, self-incriminating or demeaning behavior;
- critical appraisals of other individuals with whom respondents have close family relationships;
- legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers;
- religious practices, affiliations or beliefs of the student or student's parent *or guardian*; or
- income, (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of an unemancipated minor, without the prior written consent of the parent.

Prior to an employee or contractor of the district providing information on a student enrolled in the district on any survey related to the social or emotional abilities, competencies or characteristics of the student; the district will provide the parent/guardian of the student detailed information related to the survey and obtain written consent of the parent/guardian of the student. This includes the person who created the survey, the person who sponsors the survey, how the information generated by the survey is used and how information generated by the survey is stored. This requirement will not prohibit a district employee from answering questions related to a student enrolled in the district as part of developing or implementing an individualized education program for the student.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

It is the responsibility of the board to review and approve the evaluation and testing program.

Revised: August 21, 2023

The George-Little Rock School District is committed to ensuring the integrity of the information obtained from the use of educational assessments. This policy is intended to apply to two assessments in particular; the assessment used to meet the reporting requirement under the No Child Left Behind Act and the assessment used to meet the reporting requirements for the Annual Progress Report to the Iowa Department of Education.

The purpose of this policy is to identify procedures that can ensure assessment results are truly representative of the achievement of students in our district. It is also our intent to create awareness of the potential negative impact that inappropriate assessment practices might produce, to outline processes to be followed, and to identify the potential consequences of violating the policy. If test scores become questionable because of inappropriate practices in either preparing students or in administering tests, the meaning of the scores will be distorted and their value for their original purpose will be diminished or lost.

Appointment of District Test Coordinator

The district shall appoint a District Test Coordinator, who may in turn delegate responsibility for testing-related functions to one or more Building Test Coordinators. The District Test Coordinator is the Curriculum Assessment Coordinator. The District Test Coordinator is responsible for storing materials from Iowa Testing Programs in a secure area with restricted access both prior to and after the testing period.

Test Preparation

As a function of educating students, staff may prepare students for assessments by providing instruction in the content areas to be assessed. Staff may also prepare students for assessments by teaching general test-taking skills that are applicable to any test or test format.

Staff shall not conduct reviews or drills that use actual test items or identical format items of the accountability assessments, use copies of tests from previous years, or review test-specific curriculum content with students at any time.

Administration of Tests

In the administration of standardized tests, it is a violation of test security to do any of the following:

1. Provide inappropriate test preparation such as any of the following:
 1. Copy, reproduce, or use in any manner any portion of any secure test booklet, for any reason.
 2. Share an actual test instrument in any form.
 3. Use test preparation materials or strategies developed specifically for Annual Progress Report or the Annual Yearly Progress report.
2. Deviate from the test administration procedures specified in the test examiner's manual.
3. Provide inappropriate assistance to students during the test administration.
4. Make test answers available to students.
5. Change or fill in answers on student answer documents.
6. Provide inaccurate data on student answer documents.
7. Engage in any practice to artificially raise student scores without actually improving underlying student achievement.
8. Participate in, direct, aid, counsel, assist, encourage, or fail to report any of the acts prohibited in this policy.

After testing is completed, test booklets are to be returned according to procedures established by the District Test Coordinator.

Consequences of Policy Violations

If a violation of this policy occurs, as determined by the Superintendent following an investigation of allegations of irregularities, the Superintendent shall determine whether the integrity of the testing program has been jeopardized, whether some or all of the test results are invalidated, and whether a teacher or administrator has violated the Code of Ethics of the Iowa Board of Educational Examiners as found at 282-Iowa Administrative Code chapter 25.

Reports of students cheating on assessments shall be submitted to the building principal for investigation and disciplinary procedures.

A staff member found to have committed testing irregularities shall be subject to discipline in accordance with law and board policy. If the staff member is a licensee of the Board of Educational Examiners, the Superintendent shall make a timely report to that Board.

If the Superintendent believes that assessment results are invalid, the Superintendent shall make a timely report to the Iowa Department of Education.
