

NONINSTRUCTIONAL OPERATIONS AND BUSINESS SERVICES

Series 700

Policy Title Transportation in Inclement Weather

Code No. 711.08

GLR SPECIFIC - NOT IASB – Board Administrative team discussion

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary considerably throughout the district and may change quickly, the best possible information available will be utilized in the decision-making process.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Other employees and students will be notified by commercial radio when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

Weather conditions may deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.

Note: This is a mandatory policy, but the content isn't. Boards should amend the policy if necessary to reflect their practices.
